OUR HISTORY

The greatest legacy one can pass on to our children is not money or any other material things accumulated in one's life but rather a legacy of importance of education. With an aim of participating in the changing era of Indian education, we started off our journey on the iconic day of 14th November, 2014. With the founders being a part of great institutes like IIT, MIT, IIM, we did understand the limitations and margins of our current education system. With an aim to bridge the gap between the textbooks and the concepts in those textbooks, we started our little dream project called "Biyani's Super 30".

With a lot of dedication and devotion, we started out with a small bunch of equally eager students and we came to be known as teachers first and class owners much later. We proudly witnessed the change in our students as they switched from simply 'Knowing' to deeply 'Understanding' things.

"A good teacher must be able to put himself in the place of those who find learning difficult."

ABOUT US

As it is said, great things and big dreams are not accomplished easily, our journey began with a small two classroom unit but with a bunch of lovely, curious students willing to try something new, something unconventional in their daily study routine.

It was a tough and long struggle to make sure we had the most reputed, acclaimed and qualified teachers to be a part of our institute, who would understand our love and passion for teaching. Though the curve balls didn't stop us!

Specializing and becoming the veterans in the field of Maths and Science during our initial stages, we had a great start to our dreams! Later on, we managed to gather around the best teachers in town for all the other subjects and have them on board with us as full-time faculties.

Today, with our 5 branches, team of more than 30 experienced and devoted faculties, great results of 98 plus percent in consecutive years and a school rank 1, 2 and 3 in 2017-2018, we feel proud to have come closer to our aim of changing the studying pattern of our students.

Whatever be the coming future, the thing that shall decorate the eternal value of Biyani's Super 30 will always be its teaching!

"We are teachers by choice, not by conditions!"

OUR BELIEF

Of all the most difficult jobs out there, one of the most difficult jobs is that of a teacher's! It would be difficult to deny the role of a good teacher behind anyone's academic success. Well, a good teacher is not just someone who teaches their subject well, but the one who makes the student feel confident, marks their availability despite their other commitments and who makes the student see beyond the textbook concepts and develop dreams into realities. We aim to be those kind of 'good teachers' for our students.

"A good teacher can inspire hope, ignite the imagination, and instill a love for learning."

OUR MISSION

To impart a valuable system of information processing and learning amongst the students and which, we hope, they carry with themselves throughout their lives.

"Dissemination of knowledge is our aim, we don't cater to the rote learning game."

OUR VISION

Education is not just about the content prescribed in textbook, it's a belief for the happenings all around, the reason for the untold truth, a mode to develop your personality and a source to achieve the best of you.

"Our vision is that concepts are the truth. Our duty is to portray its need and applicability to students."

We believe in it, we make them believe in it. Rest is all about writing English well.

OUR ACHIEVEMENTS

Apart from great results to display, several school ranks and trust of more than 600 parents, it's a phone call from our previous students saying, "Sir, we still remember your teaching..." which is truly the biggest achievement for us.

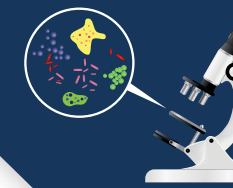

"What we want is to see the child in pursuit of knowledge, and not knowledge in pursuit of the child."

OUR VALUES

We believe in the holistic development of a child. This is a crucial period of growth for them and we aim to make the best out of them in all the time we have. Each student deserves the same teaching and equal guidance. What is the use of a tree which produces only a few sweet fruits in an entire year?

"Deep down, we want to be a building catalyst for every growing mind!"

KEY FEATURES

Qualified and Dedicated Faculties

Not only do we have teachers with IIT, MIT, NIT and St. Xavier's backgrounds, but we have also bifurcated them into ICSE and CBSE specific teaching groups. All of our teaching faculties are highly trained, excellent in relationship building and getting to know the students on a personal level.

"No such thing as a bad student, only bad teachers."
- Mr. Miyagi, *The Karate Kid* (1984)

Teaching Pattern

"We believe that it is the concept that is converted to textbook and not vice versa."

- Policy of 'NO TEXTBOOK TEACHING' and stimulation for doubts - (Our USP)
- Art of note-taking
- QA and GD between the teachers and students
- Doubt-clarification sessions are conducted daily

Course Material

"While teaching gives you knowledge, practice gives you perfection." -Leigh Anne Tuohy, *The Blind Side* (2009)

A very comprehensive and exhaustive study material including -

- Q&A covering entire syllabus
- Worksheet for every topic
- MPQ (Most Probable Questions with solutions) before every exam
- HOTS (Higher Order Thinking Skills) questions after every class

Test Series

"One of our unique selling points is our aggressive and well planned test series."

- Effective and managed difficulty level questions
- Two tests per chapter for PCMBE - Part tests -Six syllabus based preliminary examinations
- MCQ pattern tests & quarter hour tests after every lecture of PCE

Plush Classrooms

"A healthy mind dwells in a healthy environment."

- Soothing infra-structure and a pleasant environment situated within residential locality
- Tech-savvy classrooms:- CCTV and microphone enabled space, Monitors, Projectors, Bio metric attendance, etc
- Basic necessities:- Well managed and clean lavatories, AF-RO drinking water, First Aid kits, fire extinguishers and emergency facilities

For Students

"We believe that a healthy student-teacher relationship is the one where there is enough of all of the following qualities."

- Informal interactions in the most formal setting
- Timely rewards and encouragement
- Instant doubt solving team available at all times
- Personal care for specific weaknesses in students

Our Prompt Services (USP)

"Nij Par Shashan, Fir Anushaasan"

- One of our core beliefs is that we must be devoted and disciplined ourselves before we expect the same thing from our students
- Quick response to all the doubts
- All time availability of question papers with solutions
- Test paper discussions, live paper checking, prompt paper correction
- Earliest placement of missed lecture/doubt lecture
- Our students feel free to call us even at 3 AM for doubts

Activities

- Career guidance, motivational lectures, academic lectures and workshops
- Sports - Annual Cricket and Football Tournament
- Cultural Event- Literary Events, Annual Day and Tech Festival
- Annual picnic and overnight camping

'The best ones making is the best one'

ARNAV JHAWAR (2018-19)

Percentage procured- 98.4% Rank- 2nd in R.N. Poddar

I won't be modest and say that it was nothing to secure 98.4% and it was a very easy feat when it certainly wasn't! But yes, Biyani's Super 30 made it an easier feat to achieve. Some of them are these 3 Biyanis- Vidhi Ma'am, Yash Sir and Vansh Sir. It wasn't just for me, but, they were the same way for every other kid. Be it extra classes, doubt sessions or even late night calls, or a late night visit to the center for clearing concepts before prelims, they all were just a call away! Correction of sample papers, past year board papers was also done by them which helped me realize my mistakes and the rectification of concepts always came with the famous '100 Rs' wala question.

Some things will never be forgotten - staying with us during every nervous breakdown, that one call before a prelim paper saying " arrrrr kuch nai hoga apna hi paper hai poore marks lekar aaenge" which also continued during board exams. Well, all I can say is that Biyani's Super 30 is that one big joint family in which everyone has super fun and can always rely for help, the only thing that you have to do is "Ask".

PRAKHAR MUNDRA (2018-19)

Percentage procured- 98.2 % Rank- 2nd in TPS

How about achieving something you've always dreamt of and getting an opportunity to appreciate and thank the gems behind the tough journey? Marvelous enough, isn't it? Yes, I'm talking about 10th boards where I ranked 2nd in my school and this entire journey was possible because of Biyani's and the mentors who stood by me no matter what the time and situation was! A great sense of belonging was always created by the faculty members and hence it helped me develop a better understanding of concepts, making me fearless about asking doubts or any questions I had, no matter how silly they were. Also, they made me realize that time is not a barrier when you truly want to work hard. My whole year can be summarized in a simple two-step principle:

1. Do it the day it is taught.
2. Practice questions daily and correct them yourself with complete honesty.

If I had to sum up my entire journey with Biyani's Super 30 in a single word then it would be 'Family' as I don't think any other teacher would have entertained the kids as much as Yash sir and Vansh sir did by solving 1147 Physics and Chemistry doubts and 958 Maths doubts respectively without even complaining once. The journey was throwing a lot of curve balls yet we resisted with great fun as the basic key was hard work and consistency. I'm genuinely going to miss this family as it's not just a coaching institute with the propaganda of earning but an institution which wants its students to learn, make them work hard, score better and become 'besharam' when it comes to gaining knowledge and clearing doubts.

Tips for the students:

Also, would suggest students that ICSE is all about the number of questions you practice, past papers and prelim papers you solve and most importantly, the number of doubts you ask. Every student must complete their first revision at least by October. In November and December, one must thoroughly plan out few chapters in a day and solve questions followed by revisions. This being the month of prelims and school exams, the planning should be done appropriately. Leave February all to yourself. Do board questions and past papers very precisely and assure that it's being checked by proper faculties.

ICSE CBSE

TESTS

- Per chapter two tests for PCMBE.
- Part prelim for every four chapters.
- Full portion prelims

PAPER CORRECTION

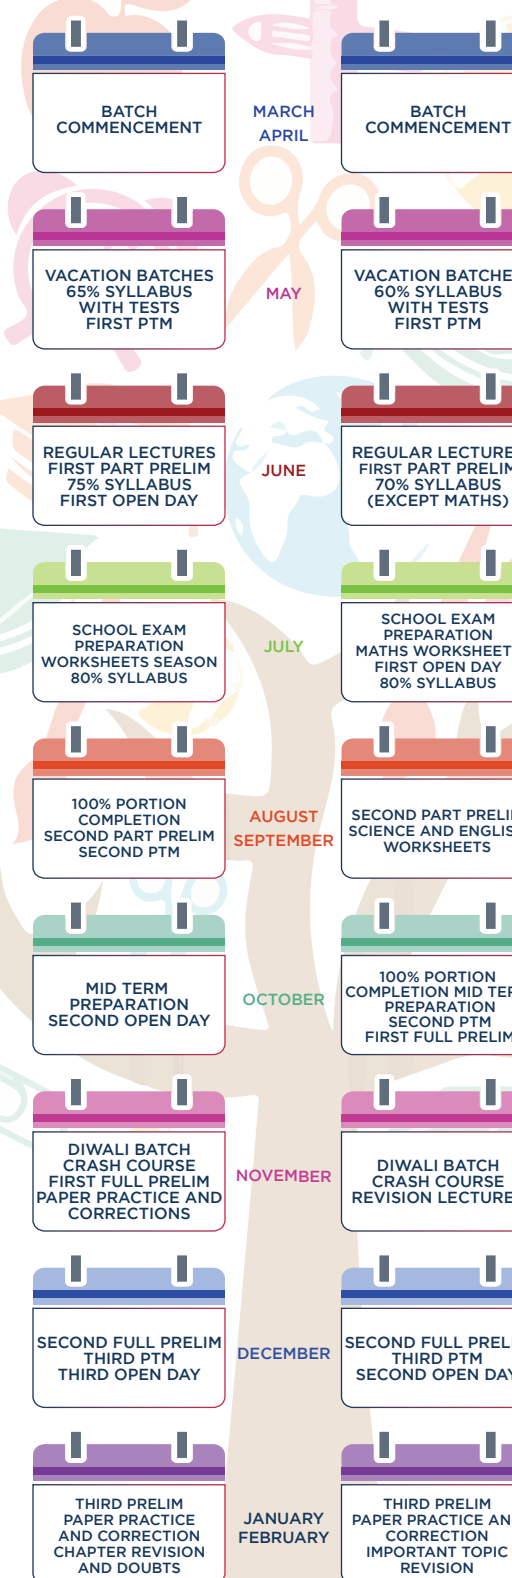

- Old board papers and other school prelim papers
- Correction by experts only
- One full prelim paper will be corrected by board moderators for PCMBEH.

PTM

- Problems with class functioning
- Feedback on the efficiency of management
- Syllabus and planning
- Faculties and other queries

OPEN DAY

- Student's performance
- Subject wise analysis
- Report card for prelims
- Personal level guidance

NOTE

1. Class timings and lecture placement is limited to our management only.
2. Students have to follow class discipline. Violation of class rules is subjected to termination of admission of the students from attending classes.
3. We maintain batch size of no more than 25 students.
4. We follow an aggressive test pattern. It is compulsory for all the students to follow it thoroughly.
5. Assignments will be given considering the school work and projects. Students are asked to strictly respect each and every assignment with punctuality and efficiency.
6. Any misbehavior with females inside or outside the class premises will result in direct termination.
7. Our study material is copyrighted. Using it with any other name or for commercial purposes will be a violation of the Indian Penal Code.
